

Year 3

Due date: One Piece Every Week - for a Wednesday.

Children should complete one piece of homework each week so that at the end of each half term every curricular area has been covered.

The children should complete a minimum of 20 points over the half term. **The first piece is due in on Wednesday 3rd May**

Curricular Areas	KNOWLEDGE AND COMPREHENSION What do I know and understand?	APPLICATION Can I apply and show what I know?	ANALYSIS What can I question, compare and analyse?	SYNTHESIS What can I create?	EVALUATION Can I evaluate and make judgements?
I enjoy being scientific	Name 3 solids, 3 liquids and 3 gases.	Draw a labelled diagram to show the particles in a solid, liquid and gas.	Conduct a simple experiment at home that shows a solid turning into a liquid.	Make and record your own piece of music using objects from around your house. Experiment with changing the volume and the pitch.	Using household items e.g. lego, cereal, buttons, create a model that shows the particles in solids, liquids and gases.
I enjoy painting, drawing and visualising	Create a poster that tells the viewer more about cyber bullying. You could also give tips about what to do to stay safe and get some help if you experience cyber bullying.	Research an artist that creates work inspired by nature.	Using materials of your choice, create your own art inspired by a Monet painting.	Create your own fantasy creature using materials of your choice and explain to your class what makes it fantastical!	Compare two pieces of art by Claude Monet.
I enjoy being active and doing hands-on activities	Name 5 different athletic events.	Find out about a famous athlete and list 3 of their achievements.	Is the biggest object always the heaviest? Prove or disprove the question above using items that you find in your house.	Create a story map or cartoon strip to retell a fantasy story you have read.	Can the tallest person jump the furthest? With someone in your household, compete in a long jump competition to answer the question above 😊
Points per activity	2	4	6	8	10

Work at home information:

This year, we are launching Bedrock Vocabulary, which is a fabulous interactive programme that develops the children's vocabulary. We are using it in school and would like the children to use it alongside their school learning at home. 5 dojo points will be given to the children who complete 15 minutes across the week - it can be in small sessions of 5 minutes. Any device can be used to access this app, as long as the internet is available.

For their maths, we use Times Tables Rock Stars (TTRS) to help improve their times table knowledge. We would love them to practise their times tables at home, too.
