

NSPCC Number day Friday 7th February

Skegby Junior Academy are joining schools across the UK on Friday 7th of February for a fundraising maths bonanza!

The children will be taking part in activities all to do with number throughout the day, with the intention of raising money for NSPCC.

We have taken part in Number Day previously and it was a great success. All children that took part in the day thoroughly enjoyed it.

We have planned a variety of number activities for the children to take part in as part of our Number day including:

- Weighing challenges
- Decorating cakes in numbers (these will be available to buy at 20p)
- Measuring challenges
- Maths quizzes
- Number of the day
- Time challenges
- Counting money amounts
- Challenges and battles on Times Table Rockstars

This year, Times Table RockStars are also donating to NSPCC and we would like you to dress up as rock stars, and make a donation of £1 for coming in non-uniform.

We also ask if children (or parents) have any 1p or 2p coppers going spare; please can they donate them as well. In classes, the children will be competing to create the longest line out of their 1ps and 2ps and then adding up the total amount as well!

We look forward to an exciting day of making maths meaningful and fun!

Thank you for support.

Miss Graney
